## **Brilase** Turkey's First Native Fiber Laser System...

Bright, brilliant, it's BRILASE ! Turkey's First Native Fiber Laser System...

Durma is proud to announce Turkey's first highest powered Fiber Laser Resonator System: BRILASE!

- Precise cutting
- High optical efficiency >%70
- Superior beam quality  $M^2 < 1.1$  (@1 kW)
- Easy power enhancement with its modular structure (Max: 6 kW)
- Maintenance free design

The fiber laser technology widely used in metal cutting, welding, micro-material processing, marking and even in 3d additive manufacturing is now in Turkey. The BRILASE Fiber Laser System developed in DURMA can provide up to 6 kW of laser power.

COMING SOON: 12 kW !!!
